G. Minikel explained the history of the area and said complaints date back to 2014. After receiving complaints this past Spring, the City was asked to re-assess the area.

Greg explained that there were 9 subdivisions developed, and no stormwater requirements at the time.

There are 2 issues, the drainage ditch needs to be re-dredged and there is an ash tree issue as well.

There is privately owned land with no existing easements. We are looking to dredge and typically a plan will need to be in place before issuing a permit.

The Committee requested advising with legal as far as who is responsible if it falls on private property. The Committee will further discuss after the Assistant
