On April 6, 2009, the Common Council Adopted Street Sweeping Parking Restrictions in an effort to comply with the City’s Municipal Storm Water Discharge Permit. The new parking restrictions were published in the Herald Times Reporter on April 20, 2009 and became effective on April 21, 2009.

The street sweeping parking restrictions are in effect from April 1st to September 30th of each year from 3:00 a.m. to 6:00 a.m. in the designated districts.

1. Why is the City making this change in parking regulations?
   - To reduce the amount of debris on streets that detracts from the appearance of your neighborhood.
   - To improve street sweeping by removing parked vehicles from streets while they are being swept.
   - To reduce the amount of debris reaching the storm drain system and its eventual discharge into streams, rivers and lakes.
   - To comply with the Wisconsin Department of Natural Resources (WDNR) Municipal Storm Water Discharge Permit.

2. How can I learn more about the new parking restrictions?
   http://www.manitowoc.org/stormwater/pollution_prevention/streetsweeping has additional information about the new parking restrictions or you can call the Department of Public Works at 920-686-6550.

3. When is my district swept?
   The City is divided into ten districts, five on the northside and five on the southside. Parking in each district is banned on the designated day from 3:00 a.m. to 6:00 a.m. The districts are described and mapped on the back of this flyer.

4. Where am I suppose to park?
   Consider parking your car on your driveway or in your garage until the sweeper has finished cleaning your street. If this isn’t possible, you may park your car on the lawn only if doing so does not track dirt or mud onto the street. Parking on your lawn is only allowed for a short time and only on your sweeping day.

5. Will I get a ticket if I move my car just before the sweeper passes by?
   Citations are issued only if the sweeper must go around a parked vehicle. If your car is moved before the sweeper arrives and is returned after it passes, you won’t be cited for parking during street sweeping hours.

6. Where are the “no parking” signs? Aren’t they suppose to be on every street?
   Entire neighborhoods can be posted for parking enforcement without posting the ends of every block. The signage for your neighborhood will be placed at all main entrances to your district.

7. What about storage containers, garbage cans, portable basketball hoops, dumpsters, and contractors’ work trucks?
   Storage containers, garbage cans, and portable basketball hoops are never permitted on city streets.
   Rented dumpsters have a permit allowing their placement at the curb while construction work is underway. If you have any questions about the placement of a dumpster, call 920-686-6910 during city hall business hours.
   Your contractor should be advised of your street sweeping day and time so that he can have work trucks off the street when the sweeper passes.

Any additional questions should be directed to the Department of Public Works at 920-686-6550.
DISTRIBUTION 1. No parking on MONDAYS in the area bounded by the following: South of Waldo Blvd, North of the Manitowoc River; East of North 18th Street and West of Maritime Drive.

DISTRIBUTION 2. No parking on TUESDAYS in the area bounded by the following: North of Waldo Blvd; North of the City Limits; West of North 8th Street and East of and including North 30th Street.
